Mission Statement

Harding Construction & Sustainable Solutions specializes in custom home building and remodeling, home energy upgrades, and green building within the greater Southern California areas.

Harding Construction works with clients to build custom new homes, remodels and room additions that are energy efficient and considerate of environmental design while staying on budget and utilizing green innovations. The resulting product is more comfortable, sustainable and less wasteful than an average home.

Harding Construction & Sustainable Solutions

What makes Harding Construction & Sustainable Solutions a Recognized Green Business

Harding Construction & Sustainable Solutions demonstrates green business practices in five areas required in the Long Beach Green Business Recognition program.

- Recycling of paper, cardboard and newspaper
- Recycling glass, metal and plastic as well as green-waste and E-waste
- Use of electronic billing methods
- Use of reusable rather than disposable products
- Using recycled content paper with soy or low volatile organic (VOC) inks
- Recycling print cartridges or use refillable toner cartridges

- Participated in free energy audit from SCE
- Turns off electronic devices when not in use, or uses standby mode
- Uses Energy Star products
- Replaces bulbs with compact fluorescent bulbs
- Uses motion sensors and lighting controls

- Follow the city's water prohibitions
- Planting drought-tolerant plants and uses mulch
- Install low-flow toilets and waterless urinals
- Install water-efficient irrigation

- Purchasing products in bulk that are concentrated
- Purchasing products from local, green vendors
- Use of green building materials
- Use of green cleaning products

- Offering customer green service or amenity options
- Incorporating green items into performance appraisals, job descriptions and/or employee orientation and training
- Establishing a green committee to further green business efforts
- Participating in local green events and collaborating with nonprofits
- Incorporating green items into company newsletter, bulletin and marketing materials
